

Sustainability Kit

AT GENFEST'24

We want to invite you to adopt some simple attitudes that, if done together, will generate great results.

01

RETHINK, REDUCE AND REUSE!

Avoid unnecessary consumption

Bring your water bottle with you

The meals reserved for the event will be served in more eco-friendly packaging

Deposit these packages in the RECYCLE bins at Genfest, placing food waste in the ORGANIC bin

Those who opted for meals within the registration will receive a reusable cutlery kit!

This will avoid the use of 40,000 disposable cutlery

Bring yours for meals and clean them after use

02

SEPARATE!

Making GENFEST a #ZeroWaste event also depends on YOU!

Make all your disposals in the identified bins at the Event Center!

03

REFOREST!

Did you know that you have a carbon footprint by participating in Genfest?

Help us reforest your experience!

Donate as much as you can to the NGO SOS Mata Atlântica to help GENFEST become carbon neutral!

04

JOIN FORCES WITH DIVERSITY

Exchange ideas, learn from differences

Join together to care for the planet and the people!

We look forward to seeing you at our GENFEST booth!
